RACHEL TANG

User Experience designer

rachel.tang@drexel.edu

racheltangportfolio.netlify.app

Education

August 2023 - June 2028
(anticipated graduation)

BS User Experience & Interaction Design
Drexel University - Philadelphia, PA

Academic Projects

September 2024 - March 2025

Website Development
Drexel University - Philadelphia, PA

- Used HTML and CSS to create a static website designing a portfolio
- Made wireframes for the layout of the website using Figma
- Planned and created a markdown file for the contents of the website

January 2024 - June 2024

Python Game Development
Drexel University - Philadelphia, PA

- Created a 2D, RPG, roguelike video game using Python and the Pygame Module in collaboration with a team of student developers
- Utilized the Agile Methodology to collaborate with teammates through the Scrum and Kanban processes

December 2023

Website Development
Drexel University - Philadelphia, PA

- Created a virtual pet to practice the finite state machine theory
- Utilized Linux commands to connect to a remote server and code through nano text editor
- Used HTML and CSS to design the website for the pet and used Tranquility (a language designed by the professor) to create the functionality to run the website
